Experiences

Web Developer

[Datamanagement Italia | March 2021 - August 2022](#)

Frontend developer, maintaining and developing applications for INPS and Revenue Agency.

Main technologies used: React.js con Redux for state management, and Angularjs (v. 1.8.x).

Implementation of REST services.

Web Developer

[Freelance | January 2020 - today](#)

Creation and management of full stack websites for different types of clients from different countries. Those websites often required the exclusive use of React JS for the frontend and NextJS for the backend.

Ramp Agent

[GH NAPOLI | January 2017 - March 2020](#)

I was in charge to supervise all the land operations for the flights to take off in time, providing safety for every operation according to the guidelines.

Interpreter

[CL International | March 2016 - February 2017](#)

I had to make sure the moving was done according to the clients' guidelines, directing a team of 4/5 people to do so. The operations took place in one of the NATO bases of my city.
